

Manuscript no. HAEMATOL/2012/072140 entitled “Common genetic variation contributes significantly to the risk of developing chronic lymphocytic leukemia“

Authors: Maria Chiara Di Bernardo, Peter Broderick, Daniel Catovsky, Richard Houlston

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:

- Richard Houlston, Molecular and Population Genetics, Division of Genetics and Epidemiology, Institute of Cancer Research, Sutton Surrey, richard.houlston@icr.ac.uk

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html): “*Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship*”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study:

Richard Houlston, Daniel Catovsky

3) Design & Methods. The following authors were responsible for specific investigations:

- Peter Broderick was responsible for laboratory analyses
- Maria Chiara Di Bernardo was responsible for quality control and statistical analyses

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:

- Maria Chiara Di Bernardo was responsible for all results
- Maria Chiara Di Bernardo was responsible for Figure 1 and Table 1

5) Writing the manuscript. The following authors were responsible for writing the manuscript:

- Richard Houlston and Maria Chiara Di Bernardo were responsible for writing the manuscript

6) Contributors Listed in Acknowledgments:

The authors would like to thank all patients and individuals for their participation.

This work was primarily supported by Leukaemia Lymphoma Research Fund (LRF05001 and 06002). Additional funding was provided by Cancer Research UK (C1298/A8362 supported by the Bobby Moore Fund) and the Arbib Fund. Maria Chiara Di Bernardo was supported by the NIH (CA148690). This study made use of genotyping data from the 1958 Birth Cohort kindly made available by the Wellcome Trust Case Control Consortium 2. A full list of the investigators who contributed to the generation of the data is available at <http://www.wtccc.org.uk/>. NHS funding for the Royal Marsden Biomedical Research Centre is acknowledged.
