

## Supplementary Figure 1A

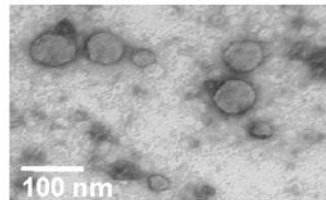

A schema of MV purification from culture supernatants and sera.

## Supplementary Figure 1B

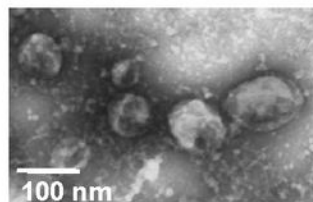

**Serum-derived MV**

**NC**

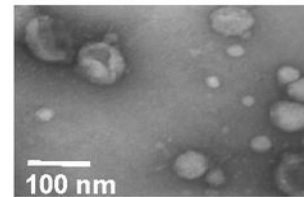

**HNC**

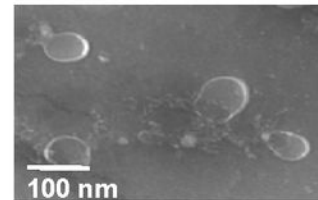

**melanoma**

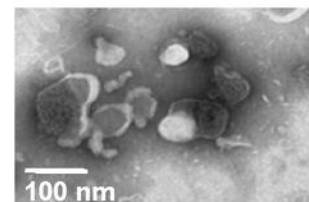

**Culture-derived MV**

**DC**

**PCI-13**

**SW-melanoma**

An electron micrograph of culture- and serum-derived MV. All MV preparations were analyzed by transmission EM. Representative micrographs are shown.
