

Supplementary Table Legends

Supplementary Tables 1A-1D. Protein identification details for AP-MS experiments (number of peptides, scores, sequence coverage). APC experiment 1 (1A), APC experiment 2 (1B), MRE11A (1C) and DNMT1 (1D)

Supplementary Tables 2A-2D. Spectral count analysis for proteins identified in AP-MS experiments (spectral counts, statistical analysis and significance). APC experiment 1 (2A), APC experiment 2 (2B), MRE11A (2C) and DNMT1 (2D)

Supplementary Tables 3A and 3B. Protein identifications and spectral counts for AP-MS APC sub-cellular fractionation experiments.

Supplementary Table 4. Spectral counts for knock-in and over-expression AP-MS experiments.
