

Supplementary Figures (1, 2 & 3)

Supplementary Figure 1: Correlation between Rv2623 absorbance level and different CSF readouts a) total cell count, b) Sugar c) protein d) Parallel blood sugar e) Sugar /Parallel blood sugar ratio in samples of active TBM patients.

Supplementary Figure 2: Correlation between Rv2623 absorbance level and different CSF readouts a) total cell count, b) Sugar c) protein d) Parallel blood sugar e) Sugar /Parallel blood sugar ratio in samples of suspected Latent TBM patients.

Supplementary Figure 3: Correlation between Rv2623 absorbance level and different CSF readouts a) total cell count, b) Sugar c) protein d) Parallel blood sugar e) Sugar /Parallel blood sugar ratio in samples of non TBM control patients.
