

Supplementary information, Figure S6 SdBp-GFP showed similar phenotype as SdBp.

(A-A'') Confocal images of third-instar wing discs expressing SdBp-GFP by *MS1096* driver.

GFP was in green and nuclei are stained with DAPI. (B-B'') Control adult wings (B) and adult

wings expressing wild type SdBp (B') and SdBp-GFP (B'') by *MS1096* driver. Quantification

of relative wing sizes of samples (fold change) indicated in B-B'' (B''').
