Effects of intrathecal SNC80, a delta receptor ligand, on nociceptive threshold and dorsal horn substance P release – JPET/206573

Milad Kouчек, Toshifumi Takasusuki, Tetsuji Terashima, Tony Yaksh, Qinghao Xu

Supplemental Figure 2

Supplemental Figure 2. Effects of intrathecal SNC80 on γ -carrageenan-induced thermal hyperalgesia. Thermal latency in seconds plotted as a function of time after γ -carrageenan. Vehicle or SNC80 (200 μ g) were administered intrathecally at time 60 min. Data are presented as mean \pm S.E.M., n=5-7.
