

Supplemental Figure S1. Miwa et al.

Supplemental Figure S1. Functional complementation of *A. thaliana* carrying *BOR2genome-GFP* (*BOR2g-GFP*).

A, GFP imaging of transgenic *A. thaliana* roots carrying *BOR2genome-GFP* (*BOR2g-GFP*) in *bor2-1*. Plants were grown on solid media containing 1 μ M boric acid for 5 days. Bars = 100 μ m. B, Plant growth of the transgenic *A. thaliana* carrying *BOR2genome-GFP* (*BOR2g-GFP*) in *bor2-1*. Plants were grown on solid media containing 0.3 μ M boric acid for 14 days. Bar = 10 mm.
