

Table S3. CGH-array analysis results from all four patients. Genomic position of the normal proximal (centromeric), normal distal (telomeric), deleted proximal, and deleted distal SNPs are indicated. The genes comprise in the minimum deletion sizes are reported.

ID sample	Normal proximal SNP(2X)	Normal distal SNP(2X)	Size (bp)	Deleted proximal SNP(1X)	Deleted distal SNP(1X)	Size (bp)	Deleted genes (from UCSC Genome Browser - GRCh37/hg19 Assembly)
