Legend

Figure 1. Simplified Directed Acyclic Graph of relationship between childbearing and obesity, National Longitudinal Study of Adolescent Health, 1994/5-2008

Table 1: Descriptive characteristics of analysis sample by parity status, before and after matching by propensity scores, National Longitudinal Study of Adolescent Health, 1994-2008
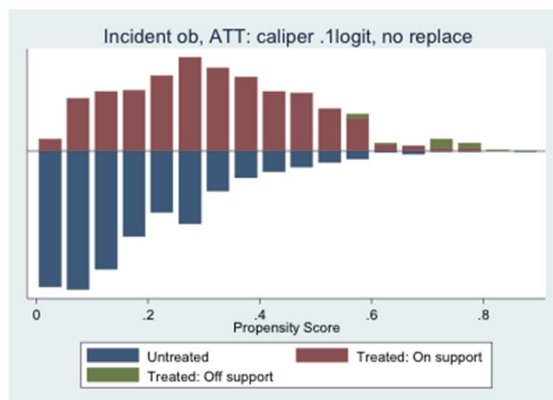

Table 2. Differences in 7-year obesity incidence between incident parous and nulliparous women, before and after propensity-score matching, National Longitudinal Study of Adolescent Health, 1996-2008

Table 3. Differences in obesity prevalence between parous and nulliparous women, before and after propensity-score matching, National Longitudinal Study of Adolescent Health, wave 4 (2008)

Supplemental Figure 1. Histogram of propensity scores for incident parity between wave 2 and wave 3, National Longitudinal Study of Adolescent Health, 1996-2001
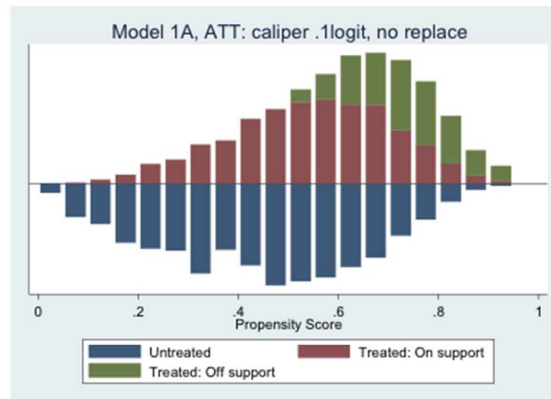

Supplemental Figure 2. Supplemental Figure 2: Histogram of propensity scores for prevalent parity at wave 4, National Longitudinal Study of Adolescent Health, 2008

Supplemental Figure 1: Histogram of propensity scores for incident parity between wave 2 and wave 3, National Longitudinal Study of Adolescent Health, 1996-2001

Histogram of propensity scores for incident parity between wave 2 and wave 3, National Longitudinal Study of Adolescent Health, 1996-2001
254x190mm (72 x 72 DPI)

Supplemental Figure 2: Histogram of propensity scores for prevalent parity at wave 4,
National Longitudinal Study of Adolescent Health, 2008

Histogram of propensity scores for prevalent parity at wave 4, National Longitudinal Study of Adolescent
Health, 2008
254x190mm (72 x 72 DPI)
