

Additional file 4

Additional file 4 - Silencing levels of miR-363-5p 48h post-transfection with anti-miR-363-5p in EC. Results in this graph are indicative as this quantification was routinely made for the experiments performed in this study to assess the efficiency of transfection. Error bars represent s.e.m. of the mean expression. *** $P \leq 0.001$ by Student's t test.
