

Table S5. Univariate Cox proportional hazards regression of survival by iLAS continuous score for the lung adenocarcinoma patients

Category	Cohort	Number of patients	Hazard ratio	95% Confidence interval	<i>P</i> -value
Overall survival	USA2	58	1.02	(0.99, 1.06)	0.142
	JPN	226	1.04	(1.01, 1.06)	0.002
Recurrence-free survival	KOR	63	1.03	(1.00, 1.07)	0.087
	JPN	226	1.04	(1.02, 1.06)	< 0.001
