

Additional file 2a – Screenshots of physician training e-learning modules

The screenshot shows a Mozilla Firefox browser window displaying the MDS Physician Training Phase 1 e-learning module. The browser address bar shows the URL: cghr.org:8080/cme2-training-old/training/training/mds_training_ver_12/player.html. The page title is "MDS Physician Training: Phase 1 (00:15 / 53:28)". The main content area features the Centre for Global Health Research (cghr) logo and the title "MDS Physician Training". Below the title is a photograph of a doctor in a white coat holding a clipboard, standing next to a woman wearing a pink headscarf. The left sidebar contains a "Table of Contents" with the following items: Home, Help, Menu, Important!, RHIME, ICD-10, Cardinal Symptoms, Tutorial: Cause of Death, Six: Steps, Remember!, and Coding Exam. The bottom of the slide shows a media player interface with "SLIDE 1 OF 39", "PLAYING", and a timer at "00:15 / 00:47".

The screenshot shows the same Mozilla Firefox browser window, now displaying a quiz question. The browser address bar shows the URL: cghr.org:8080/cme2-training-old/training/training/mds_training_ver_12/player.html. The page title is "MDS Physician Training: Phase 1 (26:47 / 53:28)". The main content area is a red box containing the following text:

Question 4 of 5 Point Value: 10

42-year old Bahadur was brought to the hospital emergency department with an infected wound on his right foot. Because of repeated convulsions he was admitted to the hospital. He could not open his mouth, could not swallow anything and there was stiffness of his neck and body. He was also sweating a lot. His wife reported that while working in the fields 10 days back, he had stepped on a nail. He treated the injury by himself. The patient died of repeated convulsions on the second day after admission in the hospital.

The correct underlying cause of death is:

- a) Stepping on a nail
- b) Convulsions
- c) Tetanus
- d) Infection

Key words you might include are: nail penetrating skin of foot, infected wound, convulsions, difficulty opening mouth, stiffness of neck and body.

Score so far: 10 points out of 30 SUBMIT

The left sidebar contains a "Table of Contents" with the following items: Home, Help, Menu, Important!, RHIME, ICD-10, Cardinal Symptoms (Adult, Child, Neonate), Tutorial: Cause of Death (Part-1, CoD 1, CoD 2, Part 2 – Risk Factors vs UCoD, Common Examples 1, Common Examples 2, A Note of Caution, Part 3 - Examples & Quiz, Example 2, Example 3, Test Yourself), Quiz, Tutorial Recap, Six: Steps (Sample Narrative, 1 – READ RECORD, ? – KEY WORDS). The bottom of the slide shows a media player interface with "SLIDE 24 OF 39", "PLAYING", and a timer at "00:00 /".
