Mike,

Yes, that would be very generous of you.

Thanks,
Frank

Subject: PLEASE READ AND REPLY REQUESTED BY COB Friday December 13 -- Proposed revision for Circulation Research Paper
Importance: High

Hi Colin and Simhan

Apologies for the delay.

Attached please find:

- 1) The Circ Research decision letter (which arrived just as the shut-down started).
- 2) Draft revised paper with mark-up (please don't make any edits directly on it, but instead let me know your thoughts through email).
- 3) Revised tables and figure legends.
- 4) Revised figures.
- 5) Draft revision letter.
- 6) R code (3 files) – see in particular “Percentiles_analyses_12_8_3.R”.
- 7) Analysis data sets (2 files).

Many thanks for your feedback and happy to discuss further.

Colin – could you also please loop in Peibei.

Frank – OK if we acknowledge you? You indicated in a prior discussion that would be OK, but want to check back in.

Much appreciated.

Mike
