

2006

Rain: 46.9 L m⁻²

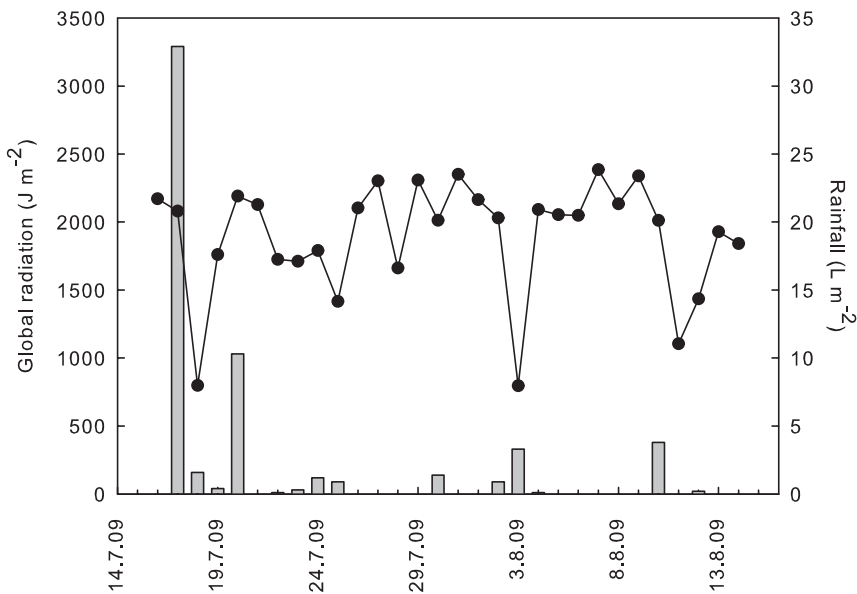

Light: 63379 J m⁻²

2008

Rain: 60.9 L m⁻²

Light: 39380 J m⁻²

2009

Rain: 57.4 L m⁻²

Light: 56870 J m⁻²

Figure S9

Weather data for 30 day prior to the experiments carried out in 2006, 2008, and 2009, were obtained at the weather station in Menz (53°10' N, 13°05' E), which is closely located to Lake Grosse Fuchskuhle and purchased from the Deutscher Wetterdienst (www.dwd.de). Filled circles: global radiation. Bars: rainfall.
