

**Supplementary Figure 2: Example of a stained RPPA and the dilution curves plus relative expression units for a low expressing and a high expressing sample, respectively.**

**Antibody stained RPPA slide (Akt)**  
 Blue: low expressing sample  
 Green: high expressing sample

**Dilution curves generated by Microvigene**  
 Area under the curve as measure for relative intensities (RIU)  
 Blue: 164 RIU  
 Green: 498 RIU
