

Appendix 1

Two by two tables used in the calculation of odds ratios for reasons for not seeking care by rural residence and the most poor

	Sought care			95% Confidence Intervals			
	Yes	No	Total	Odds Ratio	Lower	Upper	
Ill in 2004	30,363	4,767	35,130	1.12	1.07	1.17	(Significant)
Ill in 1995-6	31,018	5,444	36,462				
Total	61,381	10,211	71,592				
Mentioned financial reason for not seeking care							
Those who did not seek treatment							
	Yes	No	Total				
Rural respondents in 2004	857	2,272	3,129	1.68	1.50	1.89	(Significant)
Rural respondents in 1995-6	657	2,931	3,588				
Total	1,514	5,203	6,717				
Mentioned financial reason for not seeking care							
Those who did not seek treatment							
	Yes	No	Total				
Most poor in 2004	475	854	1,329	1.32	1.10	1.58	(Significant)
Most poor in 1995-6	272	646	918				
Total	747	1,500	2,247				
Mentioned lack of medical facility as reason for not seeking care (poor quality of care)							
Those who did not seek treatment							
	Yes	No	Total				(Not significant)
Rural respondents in 2004	410	2,719	3,129	0.99	0.86	1.14	
Rural respondents in 1995-6	475	3,113	3,588				
Total							
Mentioned lack of medical facility as reason for not seeking care							
	Yes	No	Total				
Most poor in 2004	122	1,207	1,329	0.70	0.53	0.91	(Significant)
Most poor in 1995-6	116	802	918				
Total	122	1,207	1,329				
Mentioned lack of faith as reason for not seeking care							

Appendix 1

Two by two tables used in the calculation of odds ratios for reasons for not seeking care by rural residence and the most poor

	Yes	No	Total				
Rural respondents in 2004	132	2,997	3,129	1.04	0.82	1.33	(Not significant)
Rural respondents in 1995-6	145	3,443	3,588				
Total	277	6,440	6,717				
Mentioned lack of faith as reason for not seeking care							
	Yes	No	Total				
Most poor in 2004	59	1,270	1,329				
Most poor in 1995-6	42	876	918	0.97	0.64	1.45	(Not significant)
Total	101	2,146	2,247				
Mentioned long waiting as reason for not seeking care							
	Yes	No	Total				
Rural respondents in 2004	26	3,103	3,129				
Rural respondents in 1995-6	17	3,571	3,588	1.76	0.95	3.25	(Significant)
Total	43	6,674	6,717				
Mentioned long waiting as reason for not seeking care							
	Yes	No	Total				
Most poor in 2004	10	1,319	1,329				
Most poor in 1995-6	4	914	918	1.73	0.54	5.54	(Not significant)
Total	14	2,233	2,247				
Mentioned ailment not considered serious as reason for not seeking care							
	Yes	No	Total				
Rural respondents in 2004	1,148	1,981	3,129				
Rural respondents in 1995-6	1,783	1,805	3,588	0.59	0.53	0.65	(Significant)
Total	2,931	3,786	6,717				
Mentioned ailment not considered serious as reason for not seeking care							

Appendix 1

Two by two tables used in the calculation of odds ratios for reasons for not seeking care by rural residence and the most poor

	Yes	No	Total				
Most poor in 2004	459	870	1,329				
Most poor in 1995-6	381	537	918	0.74	0.62	0.88	(Significant)
Total	840	1,407	2,247				
Mentioned others as reason for not seeking care							
	Yes	No	Total				
Rural respondents in 2004	556	2,573	3,129				
Rural respondents in 1995-6	507	3,081	3,588	1.31	1.15	1.50	(Significant)
Total	1,063	5,654	6,717				
Mentioned others as reason for not seeking care							
	Yes	No	Total				
Most poor in 2004	204	1,125	1,329				
Most poor in 1995-96	103	815	918	1.43	1.11	1.84	(Significant)
Total	307	1,940	2,247
