Supplementary Figure 1. *C. neoformans* infection in CARD9KO and IFN- γ KO mice

WT, CARD9KO and IFN- γ KO (J. Immunol. 159: 1418-1428, 1997) mice were infected intratracheally with *C. neoformans*. The number of live colonies in lungs was counted on day 14 after infection. Each column represents the mean \pm SD of five mice. * p < 0.05.
