

Supplementary Table 2. Percentage of Fascin Positive Lesions in KPC Mice

Grade	Fascin⁺ Lesions (%)	Total
PanIN 1	0	100
PanIN 2	0	70
PanIN 3	4 (6%)	65
PDAC	20 (100%)	20

Percentage of each type of lesion from KPC mice having at least one fascin positive cell. Data were collected from eight 10w old KPC mice for PanINs and twenty KPC mice with tumours for PDACs
