[†]Cochrane Library consists of Cochrane Database of Systematic Reviews (CDSR), Database of Abstracts of Reviews of Effects (DARE), The Cochrane Central Register of Controlled Trials (CENTRAL), The Cochrane Methodology Register (CMR), Health technology assessment database (HTAD), NHS Economic evaluation database (NHSEED) and About the Cochrane Collaboration (ABOUT). Considering that different databases in Cochrane Library represent different types of studies, and clinical trials were of our interest, therefore, we chose the database of CENTRAL at last step for further screening.
