

TableS3 Locus-specific results for temporal museum groups and modern-day reference data showing expected (H_e) and observed (H_o) heterozygosities, number of alleles (A), allelic richnesses (A_R) and inbreeding coefficients (F_{IS}).

Samples collected 1854-1919						Samples collected 1920-1959						Samples collected 1960-1979
