

Frietze, Supplemental Figure 7

Supplemental Figure 7. ER co-immunoprecipitation with ZNF217 and CtBP2.

Co-immunoprecipitation of endogenous ZNF217, ER α and CtBP2 from MCF7 nuclear extracts. Immunoprecipitation experiments with ER α antibody to co-IP ZNF217 were blotted with corresponding antibodies. CtBP2 is a ZNF217-binding partner. Input from nuclear extracts is shown in the two left lanes.
