

Supplementary Figure 1

Lau et al., 2014

**Supplementary Figure 1. Oligomeric A $\beta$  did not induce changes in the expression of PSD95 in primary hippocampal neurons.** Primary cultures of hippocampal neurons were exposure to 5  $\mu$ M oligomeric A $\beta$  for 24 h. Neurons were stained with PSD95 antibody. (A) Control, (B) 5  $\mu$ M A $\beta$  for 24 h.
