fung@zonmw.nl

I am writing to confirm that ZonMw has decided to approve a grant of € 439.301,- for the project entitled "*The cost-effectiveness of a transmural peri-operative care program for gynaecology*". This decision was communicated in a letter of October 20th 2010 (2010/29945/ZONMW) and is based on the positive recommendation of the committee of the "Health care efficiency research" programme.

Assessment

ZonMw prioritizes project proposal submissions based on scientific quality and relevance to the programme. The committee based its assessment on the quality of the project proposal, the reviewers' assessments and the project manager's response to the latter.

If this letter gives rise to any questions, please contact the individual listed in the letterhead.

Yours faithfully,

Marleen Jonker
Programme officer
