

Raw MS Data

Raw mass spectrometric files in Thermo Scientific's *.raw format (60 LC-MS/MS runs for rat tissues and 18 LC-MS/MS runs for human skeletal muscle samples) as well as annotated MS/MS spectra libraries (png-files) for acetylated peptides are available for download through Tranche at <http://proteomecommons.org>.

The **.raw files for the rat tissues** are available using the following Hash-keys and passwords:
