

Additional file 3: Reasons for non-use by household access.

Reasons cited for why a person did not use a net the previous night by study arm (unweighted) for households with sufficient access to ITNs (at least 1 ITN per 2 people) and without for the second and third evaluations (January and June 2012).

Reason given by respondent	Survey	Insufficient access					Sufficient access				
		Control	Study arm HU	HU + 1 DTD	HU + 2 DTD	Total	Control	Study arm HU	HU + 1 DTD	HU + 2 DTD	Total
N	Jan	86	129	103		232	196	105	103		208
	June	153	182	66	54	455	168	183	64	56	471
Not enough nets - %	Jan	52.3	52.7	64.1		56.3	5.6	21	20.4		13.4
