

Figure S2. Probability distribution of average log₁₀ incidence rates (/100,000) in game cities of the 2001-2013 period during the weeks of World Cup round one (teams: R1T and tourists: R1G) and round two (R2) of the 2014 World Cup. For each period, the 10th percentile (P10), P2014 and maximum are indicated.
