First Author: _____ Corresponding Author: _____

MS Title: _____

Total # of pages: _____ Total # of color pages: _____ Total # of supplementary files: _____

Research funded by: HHMI NIH Wellcome Trust (UK) Other (please specify) _____

Publication Costs

Page charges apply to original research papers and reports at a rate of \$100 per page or part page assessed. All pages are assessed for page charges. Color charges are assessed separately and will be added to the total amount of pages assessed.

Color charges apply to all pages with color figures. Standard rates for color charges are \$340 for the first printed color page and \$150 for each additional color page. Authors may choose to convert color images to grayscale for the print edition of their manuscript in order to eliminate color charges. Figures will remain in color for the online version of the manuscript if this option is selected.

Supplementary fees apply for any supplemental material posted with a manuscript. A flat \$100 rate for all text, figures and/or tables is assessed. Supplemental movies carry a rate of \$150 for up to five movie files and \$50 for each subsequent movie file.

Open-Access

Authors may choose to have their manuscript made freely available online, from the first day of publication, for all scientists and students around the world to view without a subscription or by paying a pay-per-view download fee.

Prices vary based on the type of paper and the desired Creative Commons license you wish to use.
