Dear Sir, Madam

I hereby give permission to being acknowledged in the manuscript CIRCRES/2014/303810R2

With kind regards,
Frank

Subject: [POSSIBLE VIRUS:###] Cocksackie luciferase

Dear Frank,

I have a question. A couple of years ago you generously have sent us the Cocksackie luciferase plasmid. We have used virus generated from the plasmid in a collaborative project with the group of Dr. Wu here at Stanford. The project involved using human iPSC-derived cardiomyocytes as an in vitro model for coxsackievirus B3-induced myocarditis and antiviral drug screening platform. The work has led to a manuscript (see attached) that is being considered for publication at Circulation Research. We would like to ask if you are OK with being mentioned in the acknowledgments and if you could please check if the reference to this plasmid is correct? If so, could you please send a quick email to circulation.research@circresearch.com giving permission to be acknowledged in the paper mentioning the manuscript number (CIRCRES/2014/303810R2). Please let us know your thoughts and again thank you for providing the Cocksackie luciferase that was very helpful for this project.

Best,
Jan

Hello,

I give my permission to be acknowledged in the paper submitted by Arun Sharma to your journal (Circulation Research).

Have a nice day !

Hi Karim, thanks again for your assistance in viral qPCR. I have listed you in the acknowledgements section of my paper that I recently submitted to Circulation Research. Could you please send a quick email to circulation.research@circresearch.com giving your permission to be acknowledged in my paper?

Thanks so much for your help.
