

Supplementary Fig S1. Immunohistochemistry staining of our TMA Samples.

(A)CD68 immunostaining of TMA samples. (B)CCL18 immunostaining of TMA samples.

(C,E,G)CD68 Immunostaining of sample G8,F5,H7(Original magnification $\times 50$),respectively.

(D,F,H)CCL18 Immunostaining of sample G8,F5,H7(Original magnification $\times 50$),respectively.

(I,K,M)CD68 Immunostaining of sample G8,F5,H7(Original magnification $\times 100$),respectively.

(J,L,N)CCL18 Immunostaining of sample G8,F5,H7(Original magnification $\times 100$),respectively.

(O,Q,S)CD68 Immunostaining of sample G8,F5,H7(Original magnification $\times 200$),respectively. (P,R,T)

CCL18 Immunostaining of sample G8,F5,H7(Original magnification $\times 200$),respectively.

(U,V)Negative controls, stained with isotype-matched control IgG
