

Supporting Information Fig S6

Supporting Information Fig S6: mRNA levels of pro-inflammatory cytokines in mice fed 2 weeks with MCD-diet.

CCL-1, *CCL-8*, *CCL-17*, *IL-1 α* , *IL-1 β* , *IL-6* mRNA levels were assessed by RT-PCR, n=6 per groups, values were calculated relative to WT mice and β -catenin was used as an internal standard. Error bars represent SEM.
