

2013 AAHKS Member Survey: Patient-Physician Shared Decision Making in Total Hip & Knee Arthroplasty
This is an ANONYMOUS 2-page survey designed to explore shared decision making preferences and practices in THA/TKA. Your complete responses are important. Please return BOTH PAGES of the questionnaire in the enclosed envelope or via fax to 847-698-0704 no later than April 30, 2013.

Questions? Call the AAHKS at 847-698-1200.

1. Thinking about the patients you have seen in the last 12 months, to we recommendations regarding hip or knee replacement? Please rank the factor that most strongly affects your recommendations, to "8" being the	ollowing patient fa	ctors from 1 thr	u 8, with "1" representing the	
Physical exam findings (e.g., limp, pain with ROM, limited ROM)	Patient's sy	mptom severity		
Patient's values and preferences	Degree of C	A on radiograph	ic images	
Patient's co-morbidities	Patient's fui	nctional status		
We have exhausted conservative treatment options (Rx, Physical Therapy, etc.)	Patient's ag	е		
2. "Routine practice" is defined as what you do <u>more than half the time</u> provide educational materials to potential THA/TKA patients before their <u>surgical</u> options for treatment of advanced OA of the hip or knee? O Ye 3. Do you routinely (i.e., more than half the time) provide educational materials to potential the time of the hip or knee?	initial office visit(s	s) that describe	the benefits and risks of	
visit(s) that describe the benefits and risks of <u>non-surgical</u> options for tr				
4. If you routinely (i.e., more than half the time) provide educational materials (please check all that apply)? Purchase directly from a vendor Provided by my medical group or health system Other (Please write your response in the box below)	erials to your hip/kı	nee OA patients	, how do you access these	7
5. Do you routinely (i.e., more than half the time) request that your paties Yes No	nts develop a list o	f questions prio	r to their visit with you?	
6. How do you assess your patients' preferences about surgical versus	non-surgical treatn	nent options (pl	ease describe)?	_
7. Do you routinely (i.e., more than half the time) provide your patients we them during their visit (e.g., an audio recording of their visit or dictated)		n that summariz	es the discussion you had with	
them during their visit (e.g., an audio recording of their visit or dictated 8. "Decision Aids" are defined as audio-visual or print materials that pre non-surgical options. 2013 AAHKS Member Survey: Patient-Physician Shared Decision Making in Total Hip & Knee Arthroplasty 13. "Communication Aids" are defined as communication tools such as question lists, after visit summaries, and consultation audio recordings. Please select the appropriate response to describe your perception of the impact of Communication Aids on the following outcomes in your practice: Neutral Decrease a. Patient satisfaction \bigcirc O \cap b. Your professional satisfaction 0 0 0 c. The quality of your interactions with patients 0 0 0 d. The frequency with which patients choose surgery 0 0 0 e. The volume of patients coming to your practice O 0 0 f. Your total consultation time with the patient (possibly across more than 1 visit) 0 0 0 g. Your staff's total time interacting with the patient $\overline{\circ}$ O O h. Your practice costs O 0 0 14. If your practice provided Communication Aids for all of your potential hip/knee arthroplasty patients, how much would your practice costs increase in dollars per patient? (Please mark one selection): O \$11-15 ○ \$0-5 O \$6-10 O Don't know Other (please specify) 15. If this increased your practice costs per patient, how would your practice pay for this increment? (Please describe): 16. Would this intervention be something you would use in marketing to patients and payors about the quality of care you provide? Yes N/A, did not use Communication 17. If you have used Communication Aids with patients, did you: Yes Aids with patients No a. Incur additional costs to your practice? 0 0 0 b. Bill for the process as a longer or extra appointment? 0 0 0 c. Get paid in some way for the time spent? Ō $\overline{\circ}$ $\overline{\circ}$ 18. Imagine that a specific package of decision and communication aids was made available to your practice. Studies showed they had no effect on visit length, but led to more productive visits (e.g., patients reached an informed decision sooner, greater patient confidence in knowing what questions to ask, and surgeons felt that patients asked better questions). How many dollars per patient would you be willing to pay, out of your clinic budget, for your patients to access this package? (Please round to the nearest whole dollar) 19. How would you expect to cover the added costs? (Please select all that apply): ☐ Increased volume of patients ☐ Increased productivity ☐ Other (please describe) ☐ Increased reimbursement 20. Do you have an employee who helps you with education or counseling of patients? If yes, please state their title or job classification. O Yes (No 21. My current practice setting is best described as (check one): O Academic Practice O Non-academic Hospital/HMO/Health System Employee Military Practice (salary from military) O Private Practice - Orthopaedic Group O Private Practice - Multi-specialty Group Other (please specify)..... 22. My practice is currently involved in (please check all that apply): Accepting bundled payments for surgeries ☐ Part of an Accountable Care Organization (ACO) Accepting "travel medicine" patients ☐ None of these 23. The revenues in my practice come in approximately the following percentages (please round to the nearest whole percent): % bundled payment % capitated % other special reimbursement method % fee for service 24. How many orthopaedists are in your practice? Please write in whole number. 25. How many years have you been in practice? Please write in whole number. 26. The state of your practice is located in: 2-letter abbreviation: 27. Did you complete an adult lower extremity reconstructive surgery fellowship? O Yes 28. Any other fellowship completed? O Yes No If yes, please describe: 29. What was your total THA/TKA surgery volume for the year 2012? Please write in whole number:

847-698-0704 no later than April 30, 2013. Questions? Call the AAHKS at 847-698-1200.
