

Figure S2

Figure S2: Src is required for ISC proliferation in the regenerating adult *Drosophila* midgut. (A-C') Posterior midguts from 14 day old Suc or *Pe* fed- control animals (A, A'; *esg^{ts}>gfp*), animals subject to RNAi-knockdown of *Src42* in stem/progenitor cells (B, B'; *esg^{ts}>Src42-IR^{KK}*) or heterozygotes for the loss of function allele *Src42^{K10108}* (C, C'). Scale bars: 50um
