

Supplementary Figure 5. Andrukhova. et al.

Supplementary Figure S5. Anti-WNK4 and anti-NCC antibodies used in the present study are specific. Specificity of the anti-WNK4 and anti-NCC antibodies was controlled by Western blot analysis of renal total protein extracts from 2-month-old male wild-type, WNK4^{-/-} and NCC^{-/-} mice, respectively. Frame in Western blot image indicates splicing event.
