

## Online Support Information

**Table S1. Mouse strains used**

Strains	Characteristics
P50-KO	Mice deficient in NF- $\kappa$ B p50 gene
Tie2-GFP	Mice overexpressing Tie2-GFP on endothelial lineage cells
NG	Mice deficient in p50 gene in all cell types and overexpressing GFP on endothelial lineage cells
WT-GFP-BM	Mice with an intact p50 gene and overexpressing GFP on BMDEPCs.
P50-NG-BM	Mice deficient in p50 gene in all cells and overexpressing GFP on BMDEPCs.
P50-GFP-BM	Mice deficient in p50 gene in stromal/parenchymal cells and overexpressing GFP on BMDEPCs.
WT-NG-BM	Mice deficient in p50 gene in bone marrow/blood cells and overexpressing GFP on BMDEPCs.
