Supplementary Figure S1. The CXCR4/ACKR3 ligands CXCL12, AMD3100 and ubiquitin do not affect cardiovascular function in normal animals. Arrows indicate the time point of drug injection (350 nmol/kg), n=3-5/group. Open circles: vehicle. Yellow squares: AMD3100. Blue circles: CXCL12. Red squares: ubiquitin. (A) Mean arterial blood pressure (MAP; mmHg). (B) Cumulative fluid requirements to maintain MAP at 70 mmHg (mL/kg).
