

A. MDk/W452(H5N8)

B. En/W149(H5N1)

C. MDk/W401(H5N1)

Supplementary Figure S5 Pathogenicity in mice. Groups of six mice were intranasally inoculated with 10^2 to 10^7 EID₅₀ in 50 μ L volume of MDk/W452(H5N8) **(A)**, En/W149(H5N1) **(B)**, or MDk/W401(H5N1) **(C)**. Body weight changes relative to initial values (live weight, left panel) and percentage survival (right panel) were monitored daily.
