

Records identified through database searching
= 3,076 citations

Additional records identified through other sources
= 0 relevant

Records after duplicates removed
= 1,733 citations

Records screened
= 1,733 citations

Records excluded
= 1,654 citations

Full-text articles assessed for eligibility
= 79 citations

Full-text articles excluded
= 46 citations
Primary reason for exclusion:
publication date prior to 2007 (4), full text article not available in English (3), no useable outcomes reported (2), not a systematic review (22), IVF/ICSI could not be differentiated from other treatments (3), assessment of treatment 'add-on' (8), comparison out of scope of review (4)

Systematic reviews included in the review
= 33
