

Peste des Petits Ruminants Virus, Eastern Asia

Technical Appendix

Technical Appendix. Maps showing the historic and current detection of peste des petits ruminants virus (PPRV) lineage IV across Africa. A) Lineages detected across Africa before the detection of lineage IV in Africa in 1997. B) Emergence of lineage IV across Africa during 1997–2014. Lineages are numbered as detailed in (1). Dates of first report of lineage IV are shown in B. Hatched shading indicates regions where multiple lineages may be circulating (data from 1–3).
