Q5 ⁺ (>\$56,580)	1.18(1.16,1.20)*	0.60(0.56,0.65)*

Multilevel linear regression model adjusted for donor age, gender, and race, population age, gender, and race, ESRD rate standardized for age and gender, and RUCA, clustered by state of residence;

^xAdjusted annualized change in donation assigned at 0.00 donors pmp per year for Q1 (reference group)

*denotes a p value<0.05

⁺donor income categories based on 2000 US Census data
