

Additional file 8: Table S1. Additional health conditions and characteristics of the cardiac patients

Patient 1

Hypertension
Aortic aneurysm

Patient 2

Hypertension
Acute myocardial infarction without ST-segment elevation

Patient 3

Congestive heart failure
Alcoholic and smoker

Patient 4

Diabetes mellitus
Congestive heart failure
LVEF 24%
Peripheral vascular insufficiency
Left ventricular thrombus

Patient 5

Hypertension
Diabetes mellitus
Retinopathy
Nephropathy
Congestive heart failure
LVEF 34%

Patient 6

Hypertension
Smoker
Unstable angina

Patient 7

Congestive heart failure
LVEF 24%
Smoker
Left ventricular thrombus

Patient 8

Diabetes mellitus
Hypertension
Smoker
Smoker

Patient 9

Hypertension
Peripheral vascular insufficiency
Congestive heart failure
LVEF 30%
