

S3 Table. Expression pattern of lineage markers in iMoDCs of BP allergic and normal donors assayed by flow cytometry. The values are mean \pm standard deviation (SD) of 7 independent donors within each group.

mean % pos. cells	1.4	0.4	8.2	75.5	0.4	87.4
\pm SD	0.8	0.2	1.4	8.2	0.5	3.6
