

**Acceleration of Antimicrobial Susceptibility Testing from Positive Blood Cultures by
Inoculation of Shortly Incubated Solid Medium Cultures into Vitek 2**

Evgeny A. Idelevich, Isabel Schüle, Barbara Grünastel, Jörg Wüllenweber, Georg Peters,
Karsten Becker

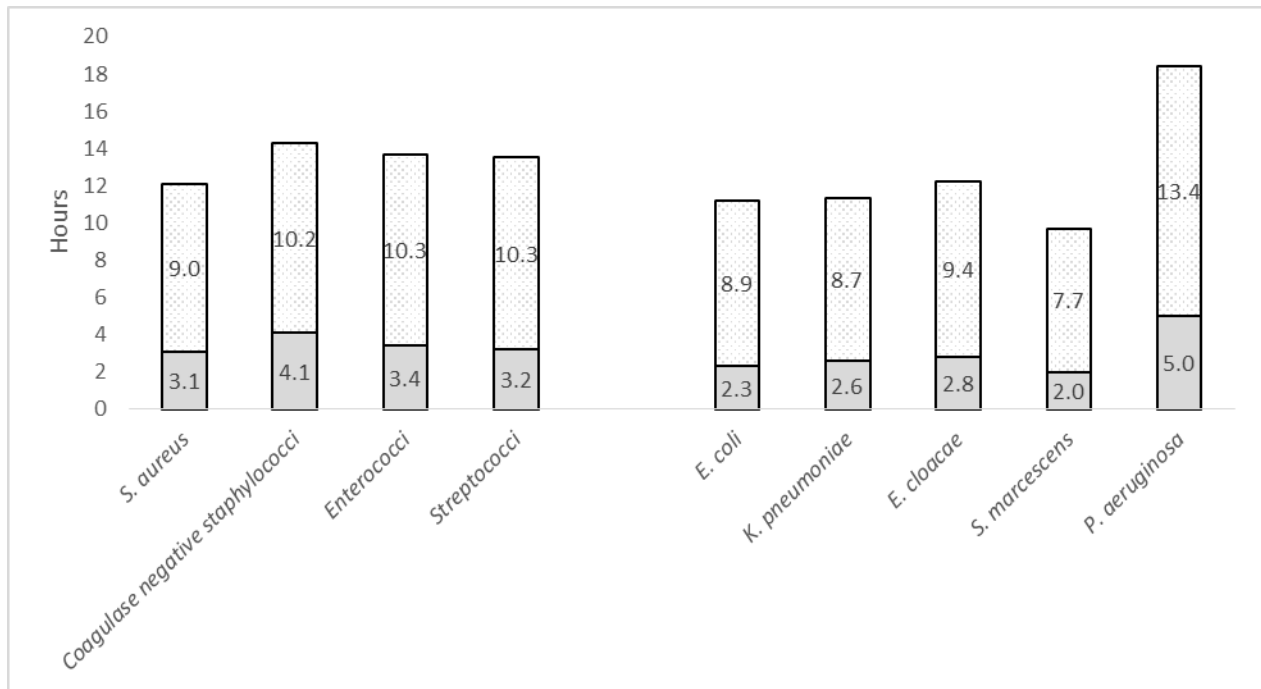

Figure S1. Mean times to AST result for different bacterial species or groups, composed of cultivation times to inoculation of Vitek 2 (dark bars at the bottom) and duration of Vitek 2 AST (light bars at the top), hours.
