

SUPPLEMENTARY FIG. S4. Effect of AAV gene transfer with miR-1222aT4 vector on cell proliferation. Cell number and luciferase expression in HuH7 cells was assessed at 4 days after gene transfer with AAV8-HLP-LUC, AAV8-HLP-LUC-122aT2, AAV8-HLP-LUC-122aT4, and AAV8-HLP-LUC-122aT8 vector compared with nontransduced (NT) cells.
