

Table S1. 12 loci MIRU-VNTR typing of 80 *M. tuberculosis* Beijing genotype isolates from Russian TBS patients

| MIRU - type * | MIT ** | MIRU12- profile | No of isolates, this study | Drug resistance*** | | MIRU-type in the Beijing database*, Russia, % in the local Beijing population | MIRU-type in the Beijing database*, FSU, % in the local Beijing population | MIRU-type in the Beijing database*, mainly East Asia and ROW, % in the local Beijing population |
|---------------------|---------|-----------------|-------------------------------------|--------------------|-----|----------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | | | Suscept. | MDR | | | |
| M2 | MIT 16 | 223325153533 | 39 | 3 | 27 | Pskov 32, St. Petersburg 53, Samara 58, Kaliningrad 17, Ural 24, Irkutsk 50, | South Ukraine 42, Kyrgyzstan 73 | China (Beijing 2.7, Shanghai 2.7, Wuhan 3.6, Henan 6.2, Hong Kong 1.6, Taiwan 0.5), Japan 0.5 |
| M11 | MIT 17 | 223325173533 | 29 | 2 | 26 | Pskov 27, St. Petersburg 21, Samara 24, Ural 56, Irkutsk 26, Kaliningrad 65, | South Ukraine 26, Kyrgyzstan 2.6 | China (Beijing 46, Shanghai 12, Wuhan 13, Henan 19, Hong Kong 31.7, Taiwan 50.8), Japan 24, Singapore 24.4, Laos 28, Mongolia 66, Vietnam 21, Saudi Arabia 37.9, Mozambique 15, South Africa 3.9, Peru 13.3 |
| M12 | MIT 135 | 221325173533 | 5 | | 5 | Pskov 2.5, St. Petersburg 2.1, Samara 1.6, Ural 6, Kaliningrad 2.5 | | China (Beijing 1.3, Shanghai 1.3, Henan 6.2), Japan 13 |
| M105 | MIT 642 | 223325173423 | 2 | | 2 | Irkutsk 0.8 | | Japan 1.1, Peru 3.3 |
| M1 | MIT 86 | 223325173433 | 1 | | 1 | St. Petersburg 2.1 | | China (Beijing 4.2, Shanghai 1.2, Wuhan 1.2, |

| | | | | | | | | |
|------|---------|--------------|---|---|---|--------------------------------|----------------|---------------------------------------------------------------------------------------------------------------------------------|
| | | | | | | | | Hong Kong 2.9, Taiwan 1.1), Singapore 3.1, Japan 1.7 |
| M54 | MIT 101 | 223325173523 | 1 | | 1 | Irkutsk 0.9 | | China (Beijing 1.4, Henan 3.1, Hong Kong 1.6, Taiwan 2.7), Singapore 4.4, Japan 2.8, Saudi Arabia 10.3, Peru 6.7, Australia 9.1 |
| M87 | MIT 592 | 223325153433 | 1 | 1 | | Samara 2.3, Irkutsk 0.9 | Kyrgyzstan 5.2 | China (Shanghai 3.7, Taiwan 0.5), Singapore 0.6 |
| M89 | MIT 571 | 223325153534 | 1 | 1 | | Pskov 7.5, Ural 2, Irkutsk 0.9 | | Taiwan 1.1 |
| M107 | MIT 706 | 223325173534 | 1 | | 1 | | | China (Beijing 2.8, Shanghai 1.2, Hong Kong 2.5, Taiwan 1.6), Japan 0.6 |

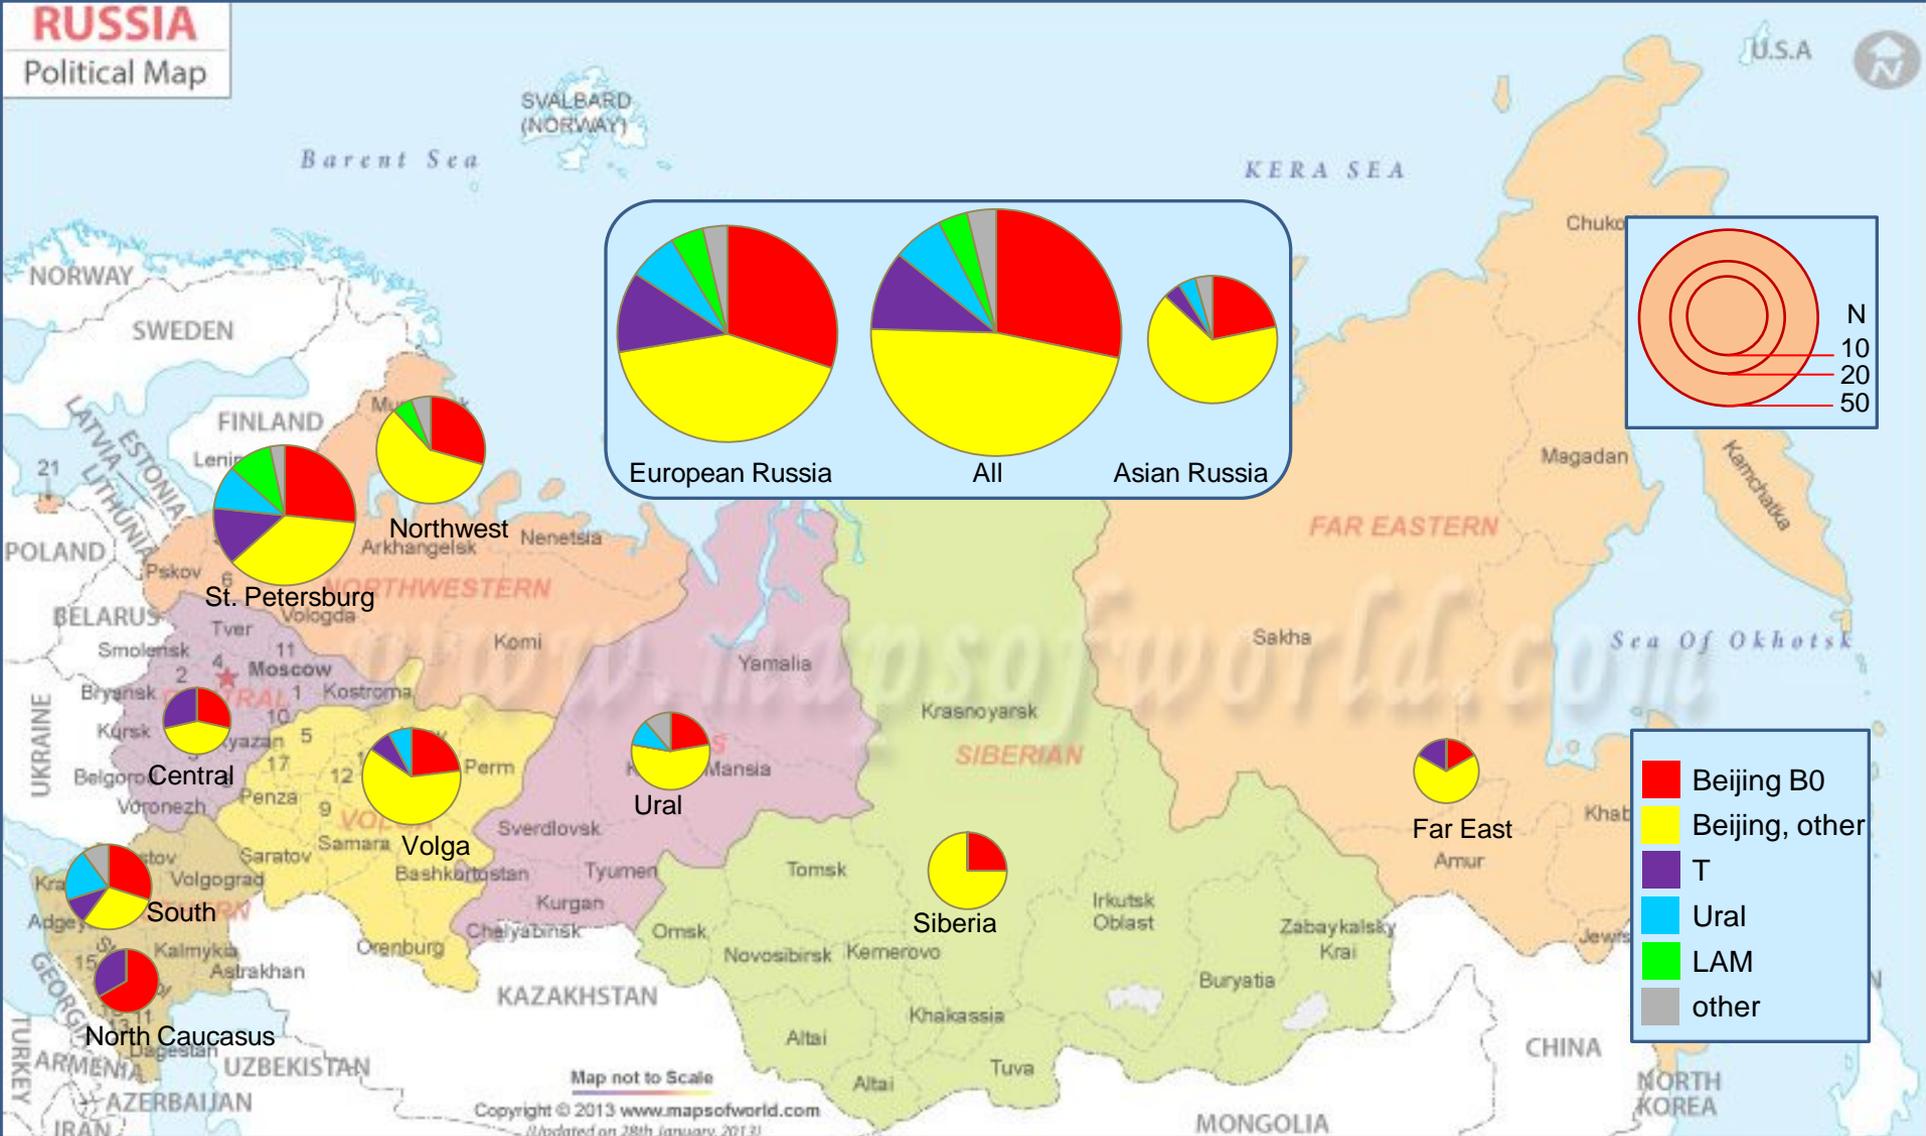

* according to our proprietary global 12-MIRU-VNTR database of Beijing genotype (Mokrousov, 2008, 2012) that currently includes data on ~3000 isolates (Mokrousov, 2015 accepted for publication).

** MIT - MIRU international type, according to SITVIT_WEB (Demay et al., 2012).

*** Drug resistance data do not include 6 phenotypically susceptible isolates with drug resistance mutations.
