

SUPPLEMENTARY FIGURE

Supplementary Figure 1: Western blotting analysis was performed to detect the expression of EMT markers in AsPC-1 GR and PANC-1 GR cells after miR-223 inhibitor treatment in Figure 4D. Quantitative results are illustrated for cells treated with miR-223 inhibitor in AsPC-1 GR (A) and PANC-1 GR (B). * $P < 0.05$ vs control; ** $P < 0.01$ vs control.
