Subject: request for permission to reprint figure from JACC article

Dear Permissions Dept.,

I'm writing on behalf of the authors of a manuscript currently in submission (at revision stage) with *Circulation*; the authors would like permission to reprint Figure 1 (see image below) from the *Journal of the American College of Cardiology* article by Jones et al., 2012;60(21):2230-2236 ("Temporal Trends and Geographic Variation of Lower-Extremity Amputation in Patients With Peripheral

Artery Disease: Results From U.S. Medicare 2000–2008”) as a figure in their paper. Three of the coauthors for this new paper (Drs. M. Patel, S. Subherwal, and S. Jones) were among the coauthors of the *JACC* article.

Thank you for considering this request, and please let me know if you need any other information.

Best,
Pete Hoffmann
