

# Cumulative incidence of autism spectrum disorders in the Israeli population born 1992-2009, by birth cohort and population group

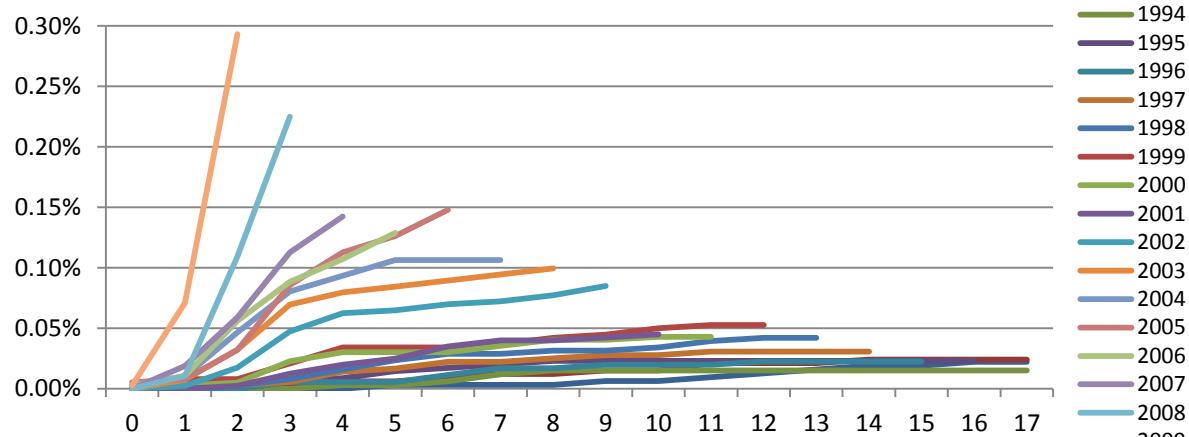

**A**

**General population**

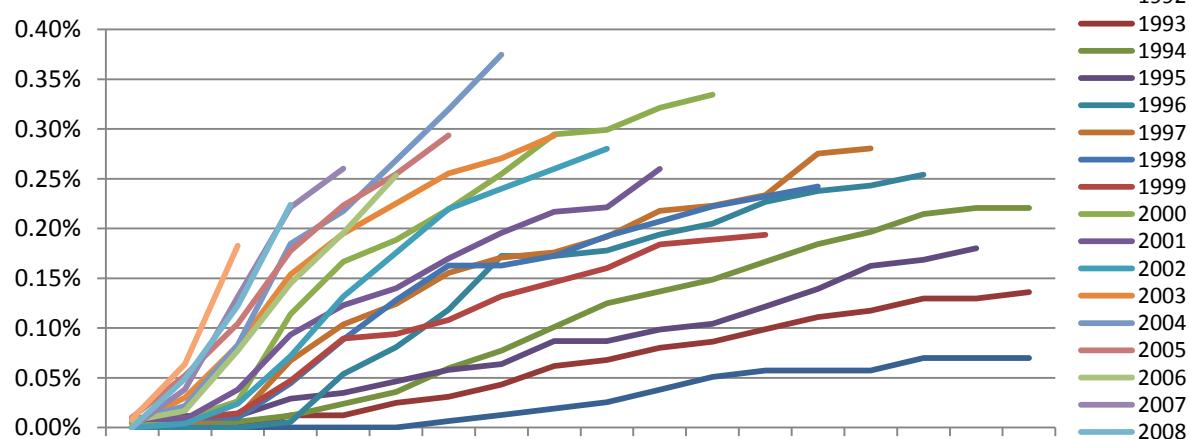

**B**

**Israeli Arabs**

**C**

**Ultraorthodox Jews**

X axes represent cohort age (in years), Y axes represent cumulative incidence. Different lines represent different birth cohorts. Note that the Y axes are not in the same scale. General Population: Total population excluding Israeli Arabs and ultraorthodox Jews.
