

Supplementary Data

SUPPLEMENTARY FIG. S1. c-Jun NH(2)-terminal kinase (JNK)/c-Jun mediates oxidized low-density lipoprotein (oxLDL)-induced apoptosis. RAW264.7 cells were treated with oxLDL with or without the presence of 25 nM of JNK inhibitor SP600125 for 24 h. Data are presented as the mean \pm SEM of at least three independent experiments. * $p < 0.05$ versus nontreated control; # $p < 0.05$ versus oxLDL-treated group.
