

Supplemental Table 1. Influence of polymorphisms in innate immune system genes in the development of allergic rhinitis

	CD14 (CT+CC to TT)		TLR4 (CT+TT to CC)	
	Number	aOR* (95% CI)	Number	aOR* (95% CI)
Allergic rhinitis	252/1,008	1.258 (0.922-1.715)	234/989	1.028 (0.748-1.414)
Atopic allergic rhinitis	143/989	1.112 (0.763-1.621)	134/971	0.939 (0.640-1.378)

*Adjusted for age, sex, parental income, parental history of allergic diseases, body mass index, exposure to tobacco smoke and region.
aOR, adjusted odds ratio; CI, confidence interval.
