

Supplementary Table 1. Frequency of asthma genes under CNVs in males and females of study population

Gene	YRI		CEU		AJ I		AJ II		CHB		China		Tibet		India		JPT		Australia		New world		Taiwan			
	M	F	M	F	M	F	M	F	M	F	M	F	M	F	M	F	M	F	M	F	M	F	M	F		
ACAA1																					1.0					
ACE							0.4																			
ADAM8	1.8			3.8 5.3		8.5 7.4								18.2 15						5.2		6.5 8.6				
AICDA					0.4		0.4																			
ALOX5					0.4																					
BDNF											9.0															
C14orf180																	3									
C5orf56																			2.4							
CCL11					0.4		0.4																			
CCL2					0.4		0.4																			
CCR1																			4.8							
CCL3L1	23	30	5	2	3	2	5	5	14	5	11	7	55	10	5	13	23	6	2	4	50					
CD69																			2.4							
CDK2							0.4																			
CHRM3									4.5										6							
CSF2							0.4																			
CTNNA3					0.8		0.4								1.3											
CXCL12					0.8														3		5.2					
CYSLTR1					0.4																					
DIAPH3					0.4																					
DPP10									4.5																	
EGFR							0.4																			
GPX3							0.8																			
GSTCD					0.4																					
GSTT1	3.7	2.7			0.8		0.4		1.2		1.2				4.5		7.5		1.3		5		8.6		5.2	
HAVCR1					0.4																					
HAVCR2					0.4																					
HLA-DQA1							0.4										9.0		5				5.2			
HLA-DRA																										
HLA-DRB1							0.4		0.4								9.0		5				5.2			
HLA-DRB5							0.8		0.4								9.0		5				15.7			
ICAM1															1.3											
IL13RA2					2.5		2.2		1.7		1.2															
IL17RB							0.4		0.4																	
IL1A																					12.1					
IL1B																			12.1							
IL3							0.4																			
IL33							0.4																			
IL4R
